Controls Engineer Fulltime Salary

About PECO:

Since our inception in 1946, Process Equipment Company (PECo) has prided itself on its innovative machines, systems, products, and services – all designed to meet the unique needs of the markets and customers we serve.

Building on the ingenuity and experience of our dedicated employees, we provide our customers with both engineered solutions and production components to help them maximize production uptime, increase through-put, improve product quality, and lower overall manufacturing costs.

PECo's quality products, technically-qualified employees, and excellent service and support help ensure your complete satisfaction

PECo serves the machining, welding, marking/traceability, assembly, gear/CMM inspection, and robotic accessory needs of the automotive, defense, power transmission, aerospace, and commercial and industrial products manufacturing industries.

POSITION REQUIREMENTS:

Designer and manufacturer of automated industrial machinery is seeking a Controls Engineer with Allen Bradley, Siemens, Modicon PLC, HMI and motion control programming. Successful candidates must have strong communication, leadership/project management skills and be a self-starter. Eligible candidate must possess a degree, or equivalent experience, in Electrical or Computer Science engineering with 8 years experience. Our progressive project management system and casual work environment offer a unique opportunity for growth and advancement.
