Salaried**

**About PECO:**

Since our inception in 1946, Process Equipment Company (PECo) has prided itself on its innovative machines, systems, products, and services – all designed to meet the unique needs of the markets and customers we serve.

Building on the ingenuity and experience of our dedicated employees, we provide our customers with both engineered solutions and production components to help them maximize production uptime, increase through-put, improve product quality, and lower overall manufacturing costs.

PECo's quality products, technically-qualified employees, and excellent service and support help ensure your complete satisfaction

PECo serves the machining, welding, marking/traceability, assembly, gear/CMM inspection, and robotic accessory needs of the automotive, defense, power transmission, aerospace, and commercial and industrial products manufacturing industries.

**DESCRIPTION:**

Candidate will develop and document gear measurement application software and train users to operate the software after development.

**POSITION REQUIREMENTS:**

BS Computer Science or Equivalent. Experienced in MS Visual C++ software development. Strong math skills needed. Technical application experience preferred. Must be able to work in a team environment. Frequent travel is necessary. We offer an attractive benefit package and a team oriented environment. Salary based on experience. PECO is an Equal opportunity employer.
