MECHANICAL DESIGNER Fulltime Salary

About PECO:

Since our inception in 1946, Process Equipment Company (PECo) has prided itself on its innovative machines, systems, products, and services – all designed to meet the unique needs of the markets and customers we serve.

Building on the ingenuity and experience of our dedicated employees, we provide our customers with both engineered solutions and production components to help them maximize production uptime, increase through-put, improve product quality, and lower overall manufacturing costs.

PECo's quality products, technically-qualified employees, and excellent service and support help ensure your complete satisfaction

PECo serves the machining, welding, marking/traceability, assembly, gear/CMM inspection, and robotic accessory needs of the automotive, defense, power transmission, aerospace, and commercial and industrial products manufacturing industries.

POSITION REQUIREMENTS:

Designer and manufacturer of automated industrial machinery is seeking a creative, detail-oriented Mechanical Design Engineer. Individual must possess experience designing special one-of-a-kind industrial machines from initial concepts through final detail and build phases. Successful candidates must have strong communication, leadership and project management skills and be a self-starter. Eligible candidate must possess a degree, or equivalent experience, in Mechanical Engineering with 8 years experience. A general knowledge of manufacturing and proficiency in SolidWorks (v2007) and AutoCad (v2004 or higher) is also required.
